# NOTES TO THE ACCOUNTS FOR THE YEAR ENDED 31 DECEMBER 2017

#### 1. Accounting policies

#### 1.1 Basis of preparation of accounts

The accounts have been prepared under the historical cost convention and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland ("FRS 102 (1A)"), and the Trusts (Jersey) Law 1984.

The trust has taken advantage of the exemption available to small entities under FRS 102 (1A) not to present a statement of cash flows.

The trust's functional and presentation currency is GBP.

The following principal accounting policies have been applied:

# 1.2 States of Jersey Grant funding

Grant funding received is credited to the statement of Income and Retained Earnings for the period to which it relates.

## 1.3 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, on a straight line basis or on the basis set out below.

Depreciation is provided on the following basis

Computer equipment 4 years, straight line basis

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the Statement of Income and Retained Earnings.

The Trust launched a campaign to identify and support women who wished to stand for political office in the October 2014 elections. 25 women stood for election and 12 were successful in obtaining a seat. This was a slight increase on the number of women candidates standing in 2011. However, the number of successful women candidates was similar to 2011. Following the election three women were appointed Ministers.

The Trust previously received funds from the States of Jersey to review the number of women in senior positions in Jersey and to make recommendations on improving diversity within the workplace. A report is being prepared which will make recommendations on how diversity within the workplace can be improved.

Effective 1 January 2015 the Trustees agreed to combine the fund balances for the Women in Politics and the Women on Boards funds to comprise a Women's Campaign Fund.

Effective 18 February 2016 the balance of funds within the Women's Campaign Fund was transferred to the General Fund. On the basis that work in respect of these issues remains ongoing as part of the general remit of the Trust rather than as a special project. It was then agreed the monies to be transferred back into the Women's Campaign Fund on the 1 January 2017.

During the year, work was carried out to promote diversity on States' Boards and Committees through the recruitment process. An event was held on 28 November 2017 to help promote a campaign to encourage and support more women to stand for political office in the 2018 elections. Following the election members of the States' Diversity Forum have been appointed and will continue to work on a programme to build a more inclusive society.

It was noted that sufficient funding for the whole project estimated at a cost of £30,000 was available. The final report was released during February 2017.

The child care report is in the process of being distributed to all sitting members and electoral candidates.
